

IEQc4: Low Emitting Materials

Ah, remember the good old days? You take an MSDS sheet, find a VOC content, make sure its under the limit, and you call it a day. That was so 2012 of us!

1 Point

2 product categories

Insulation and Flooring →

Insulation

- Thermal boards
- Acoustic boards
- Batts, rolls, blankets
- Sound attention fire blankets
- Foamed-in place, loose-fill
- Blown, sprayed insulation

Flooring

- Almost all carpet and vinyl flooring have CDPH testing
- Ceramic and porcelain tile are inherently non-emitting
- Hard/soft surface flooring

2 Points

3 product categories

Insulation, Flooring,
and Paints/Coatings →

Paints/Coatings

- All major manufacturers have CDPH testing
- Easily tracked by quantity
- Primer/flat/semi-gloss
- Epoxy or resinous floor coatings

Keep composite wood and/or furniture product categories in your back pocket, especially if you don't have a lot of it on site.

Reach 90% threshold in at least three product categories for Exemplary Performance (1 additional point).
